## Ask Contributions For Mental Health Clinic Support

Contributions toward a fund of \$1,500 that would help support a mental health clinic intended to benefit Adams children are now being sought from local residents. It is stated that the clinic is intended to help children of school age who because of unusual problems are having difficulty with their school work or seem unable to adjust themselves to their surroundings. By correcting such problems at an early age it is said children who would otherwise be classed as "misfits" can be helped to become useful citizens.
